

Canadian K9000® Distributor

# Self Serve Dog Wash

Furever Clean Dog Wash is a locally owned business operating out of Victoria, British Columbia. We are the Canadian distributor for the K9000 Self Serve Dog Wash system. The K9000 is manufactured in Australia and sold internationally.

The K9000 is a world leader in Dog Wash Stations. It provides an easy to use and convenient way for people to wash, condition and dry dogs of all sizes in a short period of time.

## Why the K9000?

Irrespective of the type of the business you run, the K9000 Dog Wash delivers solid returns for those who incorporate the Dog Wash station as part of their business, and at the same time creates very happy customers. With so many Canadians owning dogs, the demand for this service and potential for increased revenue is enormous.

There are many benefits to owning a K9000 Dog Wash Station:

### **Attracts a whole new customer base**

The Dog Wash draws in a whole new set of and what will become, regular customers. New customers are very likely to purchase other services/products you offer while they are on your premises. Some businesses have seen increases to their revenue of up to 40%.

### **Differentiates your business from your competitors**

Provides your customers with that extra amenity can make the difference between them choosing your business over another.

### **Ability to cross sell with other products**

Having a K9000 Dog Wash allows you to cross sell the dog wash service with other products or services you provide. That way encouraging new customers to try products/services or take advantage of promotions they haven't used before.

## CANADIANS LOVE DOGS

## Provides a constant revenue stream

Unlike many other investments, the K9000 operates consistently all year round. Even if the weather is bad, people still need to take their dogs out for a walk and still need to wash their dogs.

## High Return on Investment

The overall reliability and ease of use of the K9000 creates the ultimate in customer satisfaction and is proven to earn you more revenue than any other comparable unit available on the market.

## Easy to maintain

Unlike other dog baths, the K9000 requires minimal attention. No constant filling up of shampoo bottles, no collection of money or monitoring of time, no constant cleaning in between customers thanks to the free disinfect. The machine is extremely robust with minimal maintenance. It just keeps on going.

## About the K9000 Dog Wash

The K9000 is constructed from heavy duty, high quality aircraft stainless steel with bright, eye catching decals, providing a superior finish and longevity.

The K9000 comes with a bright digital display timer making it easy to monitor the wash progress. The price and time are fully adjustable and can be configured by the K9000 owner. Typically, \$10-\$15 for 10-12 minutes. Additional wash time can be purchased by customers as Bonus time. The machine is programmed with several options that are easily selected during operation. The options are Shampoo, Flea Wash, Rinse, Condition, heated Blow Dry (High and Low options) and Pause timer. A free Disinfect option keeps the wash tub clean in between washes.

WASH**

LABOUR COST:  
**ONE  
HOUR  
PER WEEK**

**POWERFUL  
PROMOTIONAL  
TOOL**

**SOCIAL MEDIA  
DYNAMITE!**

Several payment device options are available with the dog-wash station. Coin/Token operated (base model) or optional Banknote reader and/or Debit/Credit tap or swipe and Apple pay, which comes with remote payment monitoring software.

The K9000 can be equipped with an optional onboard hot water unit, if hot water is not easily available at the site. This ensures a continuous supply of hot water at the correct temperature all day long.

Equipped with our exclusive soft touch wash gun is an on/off button for immediate control when washing. The gun is very easy to use. The soft coated, non-skid, hair free floor optimizes dog comfort and safety. A three-part filtration system traps dog hair while still providing sufficient area for the waste water to drain. This filter can accommodate the hair of approximately 25 dogs and should be emptied 3-4 times a week.

The K9000 uses high quality dosing pumps to apply the soap products. Our extensive experience and testing has proven that this is the most practical and reliable way to apply dog wash products and gives you the flexibility to run different products to suit individual needs.

Products provided for use with the machine are all natural to cater for the most sensitive of skins.

## Touchpad

- 🐾 30 secs pause during cycle
- 🐾 Free disinfect after cycle
- 🐾 Additional time
- 🐾 Custom programming
- 🐾 In depth auditing
- 🐾 MDB payment platform

K9000 STANDARD

K9000 TWIN

K9000 COMPACT

The GROOMEASY is the same size as the K9000 STANDARD but offers Free washes.

# Testimonials

*"We have just opened our new automotive and dog washing facility in Lunenburg, Nova Scotia and installed a Furever Clean K9000 dog washing unit. We were very impressed with how quick and easy it was to purchase and install the unit.*

*Evelyn Rutherford and Furever Clean have been exceptional in assisting with all the details and questions we had. 10/10! We couldn't be happier with the K9000 unit and how well it works, and also how quick and easy it is to wash our dogs. Our customers love the unit, which easily cleans, conditions and dries their dogs in ten minutes or less. There is no quicker and effective dog washing equipment.*

*Our Furever Clean dog treat vending machine provides delicious and healthy treats that dogs love, and the machine makes it quick and easy for our customers to operate. Thank you Evelyn and Furever Clean for your fantastic work. Great job!!!!"*

Alex Pittman, Owner - Mikiz Pittstop and Doggy Wash, Lunenburg, Nova Scotia

*"What influenced my decision to buy a K9000 was its the Self-Sufficiency and features - no bottles of shampoo to deal with, 2-speed dryer etc. The K9000 is so easy to look after that my staff can take care of both the customers and the tub. All they do is a quick wipe here and there and the machine and the area stays clean and dry. The K9000 is a feature with great visual impact and makes my overall business look nicer and neater."*

Mike Trimble, Owner - Woofys Pet Store, Comox, Vancouver Island

## Why Invest in the K9000 vs Another Dog Wash?

-  Allows for hands off operation.
-  Three part filtration system - no blocked drains.
-  High speed wash and dry - no lineups.
-  The design of the K9000 keeps dogs and mess contained.
-  Suitable for all sizes of pets, anxious and senior dogs.
-  Water and shampoos are dispensed together - no slippery mess.
-  Natural products.
-  Little to no maintenance. Local supplier.
-  Brand with your company logo.
-  Available with French/English decals.
-  Option to Customize.
